

FROM GROUND, TO PLATE...TO FORK

We're so lucky...here at Rowton Hall Hotel in the heart of Cheshire we have 8 acres of grounds and gardens that also include our very own kitchen gardens where we grow our own organic vegetables, fruits, salads and micro herbs.

We're proud that the food miles for many of these items are practically zero. When planning menus and preparing for the day's service, Matt our Head Chef peruses the various crops with Karl the Head Gardener and picks only what he requires for the day and only the produce that is at its peak of ripeness.

All our meat and fish are served at a temperature we feel best compliments the cut, if you would prefer it cooked through, please speak to your server. All our food is prepared in an environment that contains allergens. Please discuss any dietary or allergen requirements you may have with the team prior to ordering.
